ABOUT ME

I am a dedicated and persevering person with a strong passion for continuous learning.

I began my journey in web development by completing the Full Stack Developer program at Coderhouse.

Currently, I'm pursuing a Associate's Degree in Programming at UTN.

My goal is to join a team where I can grow professionally, keep learning, and contribute with commitment, quality, and positive energy.

WORK EXPERIENCE

Freelance Web Developer — Independent Professional | 2025

- Designed the user interface from scratch using Figma, applying usability and responsive design principles.
- Developed and deployed a full website including a contact form and multiple service pages.
- Implemented on-page SEO strategies to improve search engine visibility.
- I carried out the final implementation and deployment of the website, ensuring its proper functioning in production.

Cashier — Sandwich Republic | 2023 - 2024

- Processed customer orders in person and by phone, providing personalized assistance.
- Collected and delivered orders ensuring they were complete and in proper condition for customers.
- Managed daily cash closing and ensured transaction accuracy.
- Assisted with restocking and maintaining product displays.
- Assisted customers with inquiries and ensured a positive customer experience.

Cashier — Flagship | 2024

- Provided personalized assistance to customers and car wash members with membership management, including renewals, data updates, and payment method changes.
- Advised customers on available cleaning packages and helped them choose the best option according to their needs
- Managed payment processing using different payment methods, ensuring accuracy and speed in transactions.
- Promoted memberships and maintained long-term customer relationships.
